

Ceiling Mount for BM / LYD series

DYNAUDIO

INSTALLATION INSTRUCTIONS

- For DYNAUDIO: BM5 mkIII, LYD 5, LYD 7, LYD 8

- Loudspeaker positioning: Angle from 0 - 30° / Direction to the side +/- 45°
- Cables: - ceiling mount suitable for installation underneath an in-ceiling installation box
 - Internal cable routing in the bracket.

The instructions provide directions to all of the important set up and handling steps. We recommend you keep these instructions for future reference.

SAFETY NOTES

- If the product is used at productions and events (professional use) be aware of national regulatory requirements.
- Observe the local mounting regulations (they may deviate from the examples presented here).
- Use 4 screws/anchors for the ceiling mount
- Only use trained technicians to install the system
- Only mount on suitable ceilings with the corresponding assembly materials (not included in the delivery); Example - see Point 2 Observe the placement instructions provided by the anchor manufacturer.
- Ceilings that are too weak or have electrical and water conduits are not suitable. In case of doubt consult a qualified technician.
- Ensure that the screws are tight and load-bearing, in particular as regards the setting of the loudspeaker angle.
- Careful and attentive handling is required when adjusting the stand - due to the possibility of pinching or wedging your hand.
- In case of damage the product may not be used.

For indoor use only
